## NOTICE OF PROPOSED DECISION

### BACKGROUND

The McCamish Allotment (#10417) is located approximately thirty miles southeast of Ekalaka, Montana in Carter County. The McCamish Allotment consists of 1,065 acres of public domain land with 199 AUMs of active use in the allotment.

The allotment was assessed for and met Land Health Standards in August 2012. Tom and Mary McCamish submitted a warranty deed for the base property for the McCamish Allotment. In addition, they submitted Form 4130-1 (Grazing Application-Grazing Schedule), Form 4130-1a (Grazing Application-Preference Summary), Form 4130-1b (Grazing Application-Supplemental Information), and Form 4120-8 (Assignment of Range Improvements).

In January 2013, a Miles City Field Office BLM interdisciplinary team initiated an Environmental Assessment (DOI-BLM-MT-C020-2013-0065-EA) to analyze the issuance of the grazing permit to Tom and Mary McCamish for the above mentioned allotment. The Finding of No Significant Impact (FONSI) was signed by the authorized officer on 04/04/2013.

### PROPOSED DECISION

Therefore, it is my proposed decision to issue a grazing permit, which would authorize the grazing of the McCamish Allotment (#10417) to Tom and Mary McCamish. The permit would be issued for a ten year term from February 01, 2013 through January 31, 2023. The permit would be issued as follows:

GR# 2503695

Allotment McCamish	Livestock Number	Livestock Kind	Grazing Begin	Period End	%PL	Type Use	AUMs
McCamish Allot #(10417)	43	Sheep	03/01	02/28	100	Custodial	103
	1	Horse	03/01	02/28	100	Custodial	12
	7	Cattle	03/01	02/28	100	Custodial	84

Total Active AUMs: 199

### Terms and Conditions:

- Grazing is authorized during the listed season for the recognized capacity of the public land.
- Livestock will not be on the public land continuously for the entire season.
- Livestock numbers are not restricted.
- Livestock will not graze pastures at the same time every year.
- Supplemental feed (includes salting) will not be placed within on quarter of a mile from livestock

watering facilities, riparian zones, hardwood draws or wetlands. Supplemental feeds defined as feed that provides for improved livestock nutrition or rangeland management, but does not replace forage available for public land.

## **RATIONALE**

The issuance of the grazing permit is provided through a deed showing control of the base property for this allotment being submitted to the BLM. The deed contains the legal descriptions of the base property associated with this allotment.

Upon receiving all forms, the Miles City BLM Field Office interdisciplinary team initiated an Environmental Assessment (DOI-BLM-MT-C020-2013-0065-EA) to analyze the issuance of the grazing permit for the allotment. The Finding of No Significant Impact (FONSI) was signed by the authorized officer on 04/04/2013. Existing information indicates the allotment is meeting the Standards for Rangeland Health (43 CFR 4180).

The BLM determined that Tom and Mary McCamish meet the qualifications to be an applicant to hold the grazing permit. The issuance of the permit complies with 43 CFR §4110.1, 4110.2-1, and 4110.2-2.
